

KISHAN[®]
Electric Chain Saw

*Essential for better environment,
Think Differently...Deliver Differently*

Cutting edge technology...

Company Profile

Founder of the company

Incepted in the year 1996, Kishan Industries is the company driven by Mr. K.M. Panchal. With the help of 20 years of experience of this industries, he assist us for technical solutions. We have attained a reputed position in the industry under the insightful guidance of Mr. K.M. Panchal, the founder of the company. He is a competent person of electric chain saw Machine field. He assist us in manufacturing of matchless **Kishan brand electric chain saw**. We are one of the highly admired wood cutting electric chain saw manufacturers and suppliers in India.

Quality Assurance

The company possesses a team of dept professionals who have carved a niche for themselves with their innovative creations. We undertake stringent quality control measures ensuring flawless functioning of the Kishan electric chain saw.

Infrastructure

Leveraging on state-of-the-art technology, we competently comprehend the demand of various industries in Indian as well as world market. Our manufacturing unit is well equipped with all the sophisticated and advance machineries and equipments that assist in intricate construction of high value added products. Some of the latest machines used in the manufacturing process.

Vision

With utmost importance to client's interfacing services, we drive our organization with a vision to establish as a leading manufacturer and exporter high precision engineered products. Our prime interest lies in the complete satisfaction of clients. Our well experienced personnel work round the clock to achieve the objective of offering the best product on economical price.

Our Business Philosophy...

Geared with modern technology and backed by an excellent team of experienced professionals, we aim to achieve a wide customer base and hence exceed their expectations by means of our modern and cost effective technology. Inclined to meet customer satisfaction within the stipulated time frame through prompt service, our main motive is to come out with best engineering products that require less maintenance and have longer working life.

Built on simple principles of hard work,
fairness, honesty and good service

KISHAN Two Men Chain Saw Machine

Features

- A handy tool with powerful motor, exclusively designed for use in Saw Mills, Plywood/Veneer Industries, Match Factory, Wood Working Shop, Packing Departments, Fire Wood Depot, Boiler House and in many allied industries.
- Its imported steel chain and bar ensures functional efficiency of the highest order. Cutting through toughest wood as smooth as a hot knife through butter.
- The fastest cross cutting chain saw manufactured indigenously on par with international standards.
- As it is centrally balanced, it gives perfect straight cut and no extra pressure is required for faster cutting.
- Its dynamic balanced motor enables non-stop and smooth operations.
- All models are fitted with 3 phase, 3Hp, 400/440 volts electric motor+SHO.
- This hard working and smooth operating machine can execute upto a hundred cuts in an hour as compared to four or five done manually.

Applications

- **Fire Wood Cutting**

Both for Boiler House and Brick manufacturers for fast cutting and splitting of firewood.

Recommended as an OE equipment to boiler manufacturers in their package of supplies. Boiler houses can ease their problem of fuel by owning Kishan chainsaw because it's the ultimate machine in cutting and splitting firewood in the fastest way.

- **A superb Combination**

It cuts firewood logs into pieces in a matter of seconds and these pieces can be split also in a

matter of seconds by our another great product, namely "Automatic Firewood Splitter" which is compatible with Two Men Chain Saw Machine.

- **Paper Roll Cutting**

For faster cutting of imported paper roll, the only reliable machine. It cuts fast and hence a very economical machine.

- **Sandstone Cutting**

An ideal machine for faster cutting of sandstone as also graphite. It is even being used for cutting some not-so-hard varieties of stones.

- **All types of plastic materials and pipe cutting.**

Technical Data

Model	Guide Bar Length	Cutting Capacity (Circumference/Girth)	Weight of Head

KISHAN One Man Chain Saw (EXL) Machine

Features

- Kishan One Man Chain Saw Machine is an ultra modern woodcutting equipment specially developed to suit our Timber Industries. This is used in saw mills for log cutting and in timber industries for cutting size logs and it is used for other various purposes.
- Our saw mill owners have very much appreciated this machines because it saves time, labour and money. As well as this machine is light in weight and can be carried from one place to another. This machine is built with specially developed 2 HP motor with an imported Guide Bar and saw chain. As the machine is absolutely maintenance free, this saw will always be ready for action for years to come.
 - Vibration free
 - High cutting capacity
 - Safe and simple operation
 - Heavy duty
 - Easy handling

Technical Data

Length Of Bar	78 Cms [30"]
Cutting Capacity	213 Cms
Circumference / Girth	[84"]
Power	2 HP
Voltage	415 Volts 50 Hz
Chain Lubrication	Manual
Oil Tank Capacity	350 ml

Providing durable & affordable products.

KISHAN One Man Chain Saw Machine

Features

With Single Phase, 240 Volts Motor.

- Easy-to-handle by one person.
- Off-the-shelf availability of spares.
- Powerful motor.
- Light weight and compact hence convenient in handling and transportation.
- Very suitable to work in narrow space during rescue operations.
- Indigenously manufactured on par with international standard.
- A unique chain saw for multifarious activities.
- High wood cutting speed ensures speedy work.

For fire brigade service it is useful to cut trees fallen across roads during monsoons and cyclone. Also to cut through wooden structures like doors, windows during force entry.
